CD RECORDABLE MEDIA

Now you can push the performance limits of CD writing- it's easy with 52X CD-R media from Verbatim. Tested and certified by today's leading drive manufacturers, Verbatim DataLifePlus 52X CD-R discs deliver reliable, error free recording even at blazing speeds. The secret is Verbatim's innovative "Super Azo" dye, which is optimised for reliable, high-speed recording and reacts faster with greater sensitivity to laser light than other dyes. Verbatim 52X CD-R media also feature a dual protection layer that safeguards the recording layer and provides a longer archival life. Available in 80min./700MB and 21min./185MB capacities, these advanced discs enable you to take full advantage of today's CD-R burners.

DataLifePlus products are backed by Verbatim's Lifetime Warranty.

STORAGE CAPACITIES
80min/700MB; 21min/185MB (8cm)

RECORDING SPEEDS
Compatible with writers up to 52x recording speed

APPLICATIONS
Ideal for data/image storage, music/voice recording, archiving and distribution

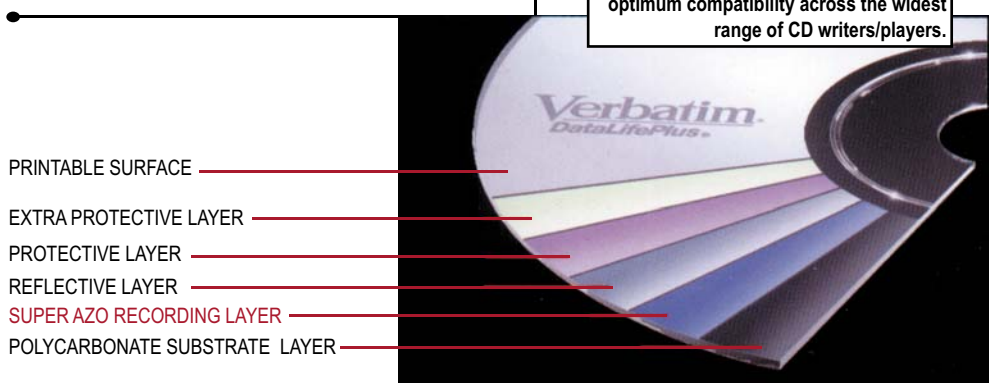

ARCHIVAL STABILITY
Exceeds 100 years on DataLifePlus® media.

WARRANTY
Lifetime Warranty on DataLifePlus® media

SUPER AZO TECHNOLOGY
Verbatim's proprietary Super Azo recording dye delivers superior High-Speed recording performance and optimum compatibility across the widest range of CD writers/players.

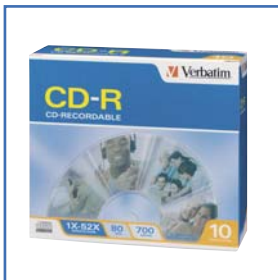

Add a splash of colour to your desktop with DataLifePlus Colours

LIGHTSCRIBE CD-R MEDIA

LightScribe Direct Disc Labeling is a new technology that offers consumers and businesses a simple, no-hassle way to burn professional, silkscreen-quality images direct to the surface of their CDs. Using the same laser that burns data in their disc drives, customers burn their data as always, flip the disc over, reinsert it into the drive and burn a precise and permanent iridescent image directly to the discs surface. This technology requires a LightScribe enabled drive and media.
